St Edmundsbury  
BOROUGH COUNCIL

## Site Allocations Development Plan Document

### Site submission form

Earlier in the year we invited developer/landowners to submit proposals for sites with development potential as part of the Local Development Framework. Sites submitted during that time are now the subject of public consultation.

This form is provided for the submission of any **additional** sites that you think should be considered by the council for their availability for development over the next 20 years.

Please complete and return this form and a **map** clearly identifying the boundary of the site by:

**Monday 5 January 2009** to:

Planning and Engineering Services  
St Edmundsbury Borough Council  
PO Box 122  
Bury St Edmunds  
Suffolk  
IP33 3YS

Or email it to: [LDF@stedsbcc.gov.uk](mailto:LDF@stedsbcc.gov.uk)

**All information submitted will be made available for public inspection and may be the subject of public consultation as part of the LDF process**

### Guidance

- 1 Please use a separate form for each site and complete the form to the best of your knowledge.
- 2 Do submit sites that:
  - would be available for development or redevelopment in the next 20 years; and
  - are more than 0.2 hectares (0.5 acres).
- 3 Do not submit sites that:
  - already have planning permission for development unless a new and different proposal is likely in the future; and
  - are outside of the St Edmundsbury local authority area.
- 4 Details of existing constraints can be obtained from a number of sources:
  - Information on floodplains can be found at [www.environment-agency.gov.uk](http://www.environment-agency.gov.uk);
  - Information on nature designations can be found at [www.natureonthemap.org.uk](http://www.natureonthemap.org.uk);
  - Details of special landscape areas and conservation areas can be obtained from the existing replacement Local Plan at [www.stedmundsbury.gov.uk](http://www.stedmundsbury.gov.uk).

### Site plan

This form should be accompanied by a site plan on a recognised Ordnance Survey base. The site plan should clearly illustrate the following information:

- The exact boundary details (**coloured red**) of the site that you would like considered
- Potential access points (vehicular and non-vehicular)
- Those areas identified as brownfield (**shaded blue**) and/or greenfield land (**shaded green**)

## 3. Development constraints

Is the suggested use subject to any of the following constraints?

Constraint	Yes/no	Comments
Flood Plain	No	
Nature designation	No	
Land contamination	No	
Conservation Area	No	
Special Landscape Area	No	

How close is the nearest bus stop?	metres 270 Bus service numbers 236
How close is the nearest primary school?	metres 290
How close is the nearest shop that will provide day-to-day food needs?	metres 3840
How close is the nearest doctor's surgery?	kilometres 4

If there are constraints to development, what interventions could be made to overcome them?  
Site is allocated and currently used as recreational space.  
Therefore any development proposals would clearly require a  
relocation of the existing facilities and our client has  
adjoining land that could achieve this.

**Policy constraints:** How does the proposal conform with current national, regional or local planning policies?

Stoke by Clare is identified as a service centre in the Core Strategy preferred options and therefore capable of accommodating a development of 10 dwellings. The site proposed could meet these numbers subject to resolution of the provision of recreational space.

#### 4. Other information

Has the viability of the site been tested? If so, please include details.

No

Level of developer interest, if known:

Low

Medium

High

Likely time frame for development:

0-5 years

6-10 years

10-15 years

Beyond 15 years

**Any further information: (Continue on separate sheets if necessary) Please supply four copies of any supportive statements or an electronic version.**
