1 April 2016

Dear Sir / Madam

Re your Newmarket Suffolk branch

I represent the Newmarket Town Council and business community and we are at present reviewing the way our town looks and ways in which we can improve its High Street appearance.

Some time ago, I visited Chichester and could not help noticing how your general corporate branding had been reduced and that you had very much fitted in with the surroundings for the benefit of the town in terms of your façade.

My request is to try and make contact with someone who is able to discuss how we could look at making your Newmarket branch look more in line with our heritage as opposed to what is the 'norm' on every High Street.

This year is the 350th anniversary of King Charles II bringing Horse Racing to Newmarket, and we are hoping that HRH Queen Elizabeth will be visiting in the autumn to unveil a special statue of her as well as seeing the town in all its glory. We are hoping that we can have made inroads in to changing the face of the town, and your help and participation in that would be hugely significant, as well as being a leading example of support in the Town.

I do hope you will consider my request and look forward to speaking or meeting with someone from Barclays.

Thank you for taking the time to consider my request.

Yours sincerely

Noel Byrne
Chief Executive
