1. Our approach to funding

1.1. Introduction to the Families and Communities approach

The council is committed to supporting families and strengthening communities to enable them to help themselves, their neighbours and the local area.

Some of the difficulties experienced by our residents could be prevented or tackled early if support were available close to home, for example, from within the family or community. Through our Community Chest Scheme we welcome applicants from organisations who can help us to deliver our families and communities approach.

The Families and Communities Approach is based on the ‘Strong Foundations’ model. This sets out the five key elements we believe are the building blocks for resilient and thriving communities.

Element 1: A Safe Place – is about working in a way which increases the safety of a place and people’s sense of the place in which they live, work or visit. It can apply to emotional safety as well as physical.

Element 2: Recognising Individuals - is about working in a way which recognises people’s individuality, that differences matter and that each person has different needs and strengths. It applies to the development of, and respect for important concepts such as self-identity, self-esteem and self-worth. It embraces culture and values.

Element 3: Understanding Relationships - is about working in a way which recognises the context of relationships and the connections that exist between people, in spite of difference, be they transactional, nurturing, emotional, practical etc.

Element 4: Encouraging Agency - is about working in a way which encourages people to help themselves, validating their own ability whatever size, recognising that taking action is an important step to change, development and improvement. At a personal level this increases people’s ability and capacity to demonstrate power, influence and control over their lives.

Element 5: Developing Vision - is about working in a way which builds positive goals and an understanding of what is being worked towards.

The council is seeking to fund organisations who help communities work towards strengthening these elements and towards delivery of the Families and Communities Strategy.
1.2. Available funding

There are two sources of funding provided to community-led groups and organisations by the Council:

### Locality Budgets

- Each Ward Councillor holds £2,500 each year
- Funds are allocated to community groups and organisations whose work directly benefits the residents of their Ward and helps councillors to meet their priorities
- Funded activities must have the support of the communities in which they are delivered
- These payments do not provide ongoing or repeat funding for the same project or service
- Community groups and organisations may apply for Locality Budget support by contacting the relevant Ward Councillor direct
- The minimum amount that can be requested is £100

### Community Chest

- Typically one-time funding, although can be for two years
- Includes core funding and delivery of services and projects
- Funded activities must help deliver the Families and Communities Approach and Families and Communities Strategy
- Eligibility criteria apply
- Includes an element of monitoring and evaluation
- The minimum amount that can be applied for is £1,000

Details on Locality Budgets and other available grants from the council can be found at [http://www.westsuffolk.gov.uk/community/community-grants.cfm](http://www.westsuffolk.gov.uk/community/community-grants.cfm)

3.3. Funding restrictions

Grants are awarded on the understanding that funding;

18. will not be awarded from more than one West Suffolk grant programme for the same work (for example, Community Chest and Locality Budgets). Match funding could include in-kind contributions such as volunteer hours;
19. should not usually be used to pay the running costs of an organisation, except on a seed-funding basis, that is, where an initial injection of funding is needed in order to help attract further support; and
20. will, usually be for a period of one year, but with the option of two or three-year grant awards where appropriate.

4. How to apply for a grant from the Community Chest - Financial Year 2018/2019
