

Worlington Neighbourhood Plan consultation responses January 2024

Questionnaire Name	Response ID	Question Number	Question Text	User Response: Text	Link	Respondent First Name	Respondent Last Name	Respondent Organisation	Respondent Email Address	Agent First Name	Agent Last Name	Agent Organisation	Agent Email Address
Worlington Neighbourhood Plan Submission (Regulation 16) consultation response form	1182529	Summary	Please provide a short summary of your comments	See attached	View Response	Alex	Jessop	Suffolk Wildlife Trust	alex.jessop@suffolkwildlifetrust.org				
Worlington Neighbourhood Plan Submission (Regulation 16) consultation response form	1182640	Summary	Please provide a short summary of your comments	I think this is an excellent Neighbourhood Plan and I would like to express my support. The maintenance of green space between Worlington and Mildenhall is important to avoid coalescence and loss of individual character. The number of new homes over the Plan period is about right, given Worlington's amenities.	View Response	Mark	Howard		mark.howard275@gmail.com

Worlington Neighbourhood Plan Submission (Regulation 16) consultation response form	1183975	Summary	Please provide a short summary of your comments	11. Poor Active Travel Ambition - Active Travel mentioned only once. Please avoid using " encourage ". Consider using " must have ". "Developments must have active travel schemes including routes for walking and cycling that are safe for residents of all ages"	View Response	John	Shead		Johnshead33@gmail.com				
Worlington Neighbourhood Plan Submission (Regulation 16) consultation response form	1184319	Summary	Please provide a short summary of your comments	I think that The Plan provides a sensible framework for trying to take Worlington forward in a sustainable way while preserving the best of what we already have. Given the perilous state on Nature in the UK & Suffolk in particular (State of Nature Report 2023 + Suffolk Wildlife Trust Magazine Winter 2023/24) I urge planners & elected representatives to heed all the recommendations in The Plan about	View Response	Don	MacBean		donmacbean@btinternet.com

				<p>preserving existing habitat & providing new areas for wildlife.</p> <p>Could you please give me a rough estimate of the cost of producing The Plan.</p>									
Worlington Neighbourhood Plan Submission (Regulation 16) consultation response form	1185337	Summary	Please provide a short summary of your comments	<p>Thank you for inviting Historic England to comment on the Regulation 16 Submission version of this Neighbourhood Plan.</p> <p>Having reviewed the plan and relevant documentation we do not consider it necessary for Historic England to provide detailed comments at this time. We would refer you if appropriate to any previous comments submitted at Regulation 14 stage and for any further information to our detailed advice on successfully incorporating historic environment considerations into a neighbourhood plan, which can be found here: https://historicengland.org.uk/advice/planning/plan-making/improve-your-neighbourhood/</p> <p>We would be grateful if you would notify us on eastplanningpolicy@historicengland.org.uk if and when the Neighbourhood Plan is made by the council. To avoid any doubt, this letter does not reflect our obligation to provide further advice on or, potentially, object to specific proposals which may subsequently arise as a result of the proposed plan, where we consider these would have an adverse effect on the historic environment.</p>	View Response	Ross	McGivern	Historic England	ross.mcgivern@historicengland.org.uk

Worlington Neighbourhood Plan Submission (Regulation 16) consultation response form	1187017	Summary	Please provide a short summary of your comments	<p>Thank you for inviting me to comment on the above plans.</p> <p>Attached is a copy of my letter of confirmation as the Cycling UK representative for Suffolk and regional representative for eastern England.</p> <p>As I live some distance from Worlington and west Suffolk generally (Oulton Broad), I don't consider it appropriate or that I am qualified to comment on the issues only appropriate for residents. I, therefore, restrict my comments to cycling proposals. Thus, the online questionnaire response forms are not appropriate for me.</p> <p>First, concerning Worlington Neighbourhood Plan. My cycling activities mean I am familiar with the B1102, including through Worlington. I understand why many don't find the idea of cycling on it appealing. It leads me to say, however, that I'm greatly encouraged it is residents who want a cycling link to/from Mildenhall. I hope the feasibility of other links to neighbouring villages will also be considered. My only other comment at this stage is that it is imperative for it to be compliant with Local Transport Note 1/20.</p> <p>I'm also greatly encouraged residents want 20 mph speed limits. If I interpreted correctly, it is only being suggested for certain parts of the village. That said, I'm guessing it would in effect mean most of the village would be 20 mph. If it doesn't mean the whole village would be, while it is a matter for residents, I hope it is ultimately what they would want.</p> <p>Second, concerning West Suffolk Local Plan. As far as I could ascertain, the only extremely brief reference to cycling is under "Connectivity and Accessibility, stating the desire to make it and public transport and walking safer but no details of how it is proposed to achieve it. I appreciate that might come later. Also, as I restrict my comments to cycling, I also restrict my reading to what seem the relevant sections. If that means I missed something, please do advise.</p>	View Response	John	Thompson	Cycling UK	johntommo6@btinternet.com

				In conclusion, I would be grateful if you would regard me as a consultee on the Worlington - Mildenhall cycling link and any others that might be considered and on the cycling proposals for west Suffolk generally as they are developed. I hope my comments are helpful and I look forward to your response.
